Allowable Subject Matter

1. Claims 11, 20-23 are allowed.

The following is a statement of reasons for the indication of allowance:

The prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Kim and Weier et al., taken individually or in combination, do not teach the claimed invention having the following limitation, in combination with the remaining claimed limitations: wherein, when the clock signal cycle is T1, a total of the signal response periods from the signal input point to the signal output point is adjusted from a non-integer multiple to an integer multiple of the clock signal T1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
